

¿What is Blockchain?

**An
incorruptible
digital
ledger**

**Where
nobody can
alter
information.**

**Supported
by a peer
community**

A service of trust

Blockchain features

**Signed
transactions**

**Provable
timestamp**

**Immutable
information**

Blockchain features

Transparency

**Without
intermediaries**

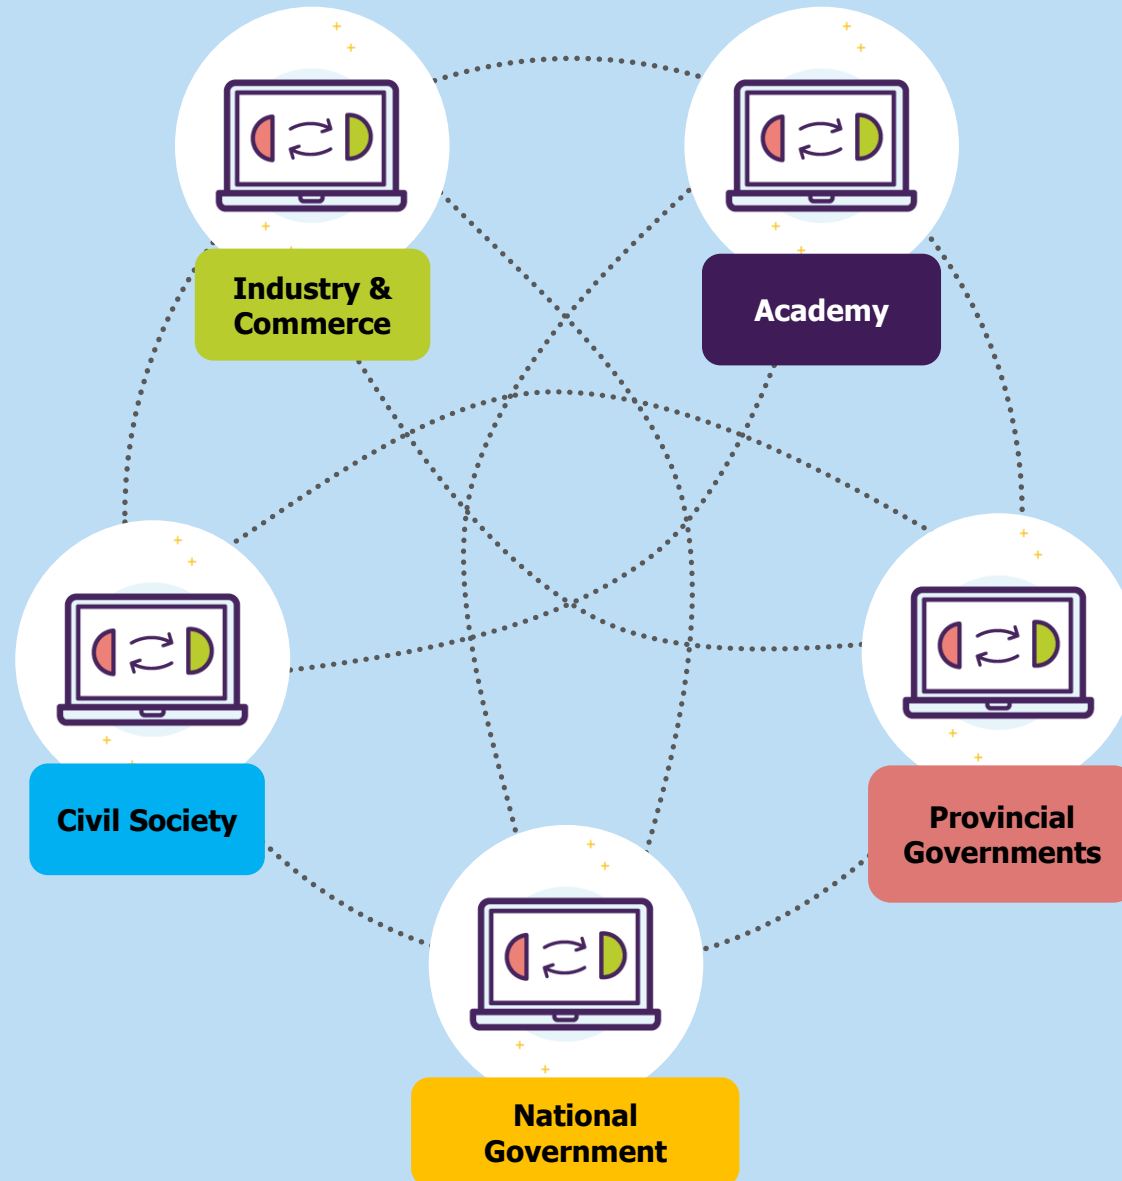

Growing log

BFA
Blockchain
Federal
Argentina

Multi Stakeholders

Parties

Academy

National Government

Provincial Governments

Industry & Commerce

Civil Society

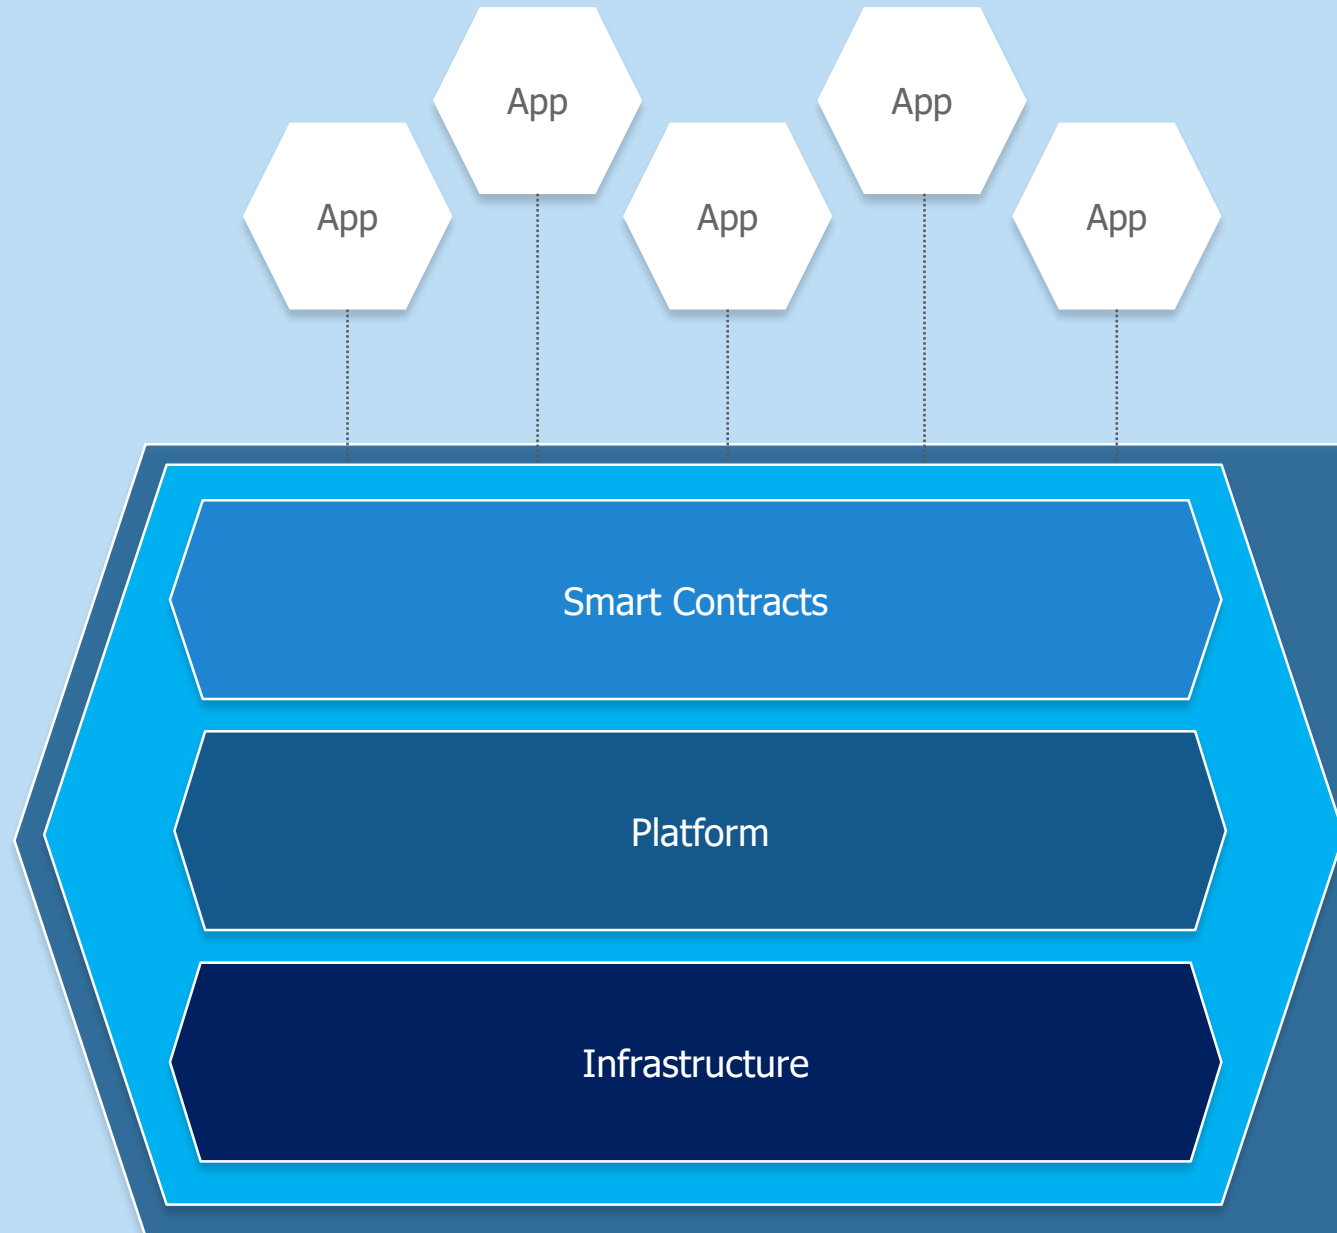

Desarrollo Digital

Use Cases

- 📦 **Time Stamp Authority** (BFA)
- 📦 **Smart Voting** (BFA)
- 📦 **Digital Files** (GDE)
- 📦 **SAS Accounting Books** (Secretaría de Modernización)
- 📦 **Citizen Folder**(Ciudad de Buenos Aires)
- 📦 **E-Wallet** (RedLink)
- 📦 **Student Certificates** (Universidad Nacional de Córdoba)
- 📦 **BORA Digital Editions** (Secretaría Legal y Técnica)
- 📦 **Transparency in the Domain Registry** (NIC Argentina)
- 📦 **Digital Promissory Note** (Garbarino)
- 📦 **Publication of River Levels** (Prefectura Naval Argentina)
- 📦 **Public Tenders** (Oficina Nacional de Compras)
- 📦 **Surety Policies** (Superintendencia de Riegos del Trabajo)
- 📦 **Open Data** (ENACOM)
- 📦 **Degree Titles** (SIU)
- 📦 **Ethereum Explorers** (Última Milla, C&S)

Model

Model

Permissioned

Lightweight

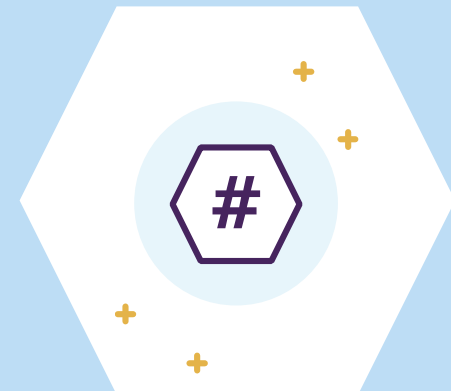

**No
criptocurrency**

**Free
transactions**

**Open
Software**

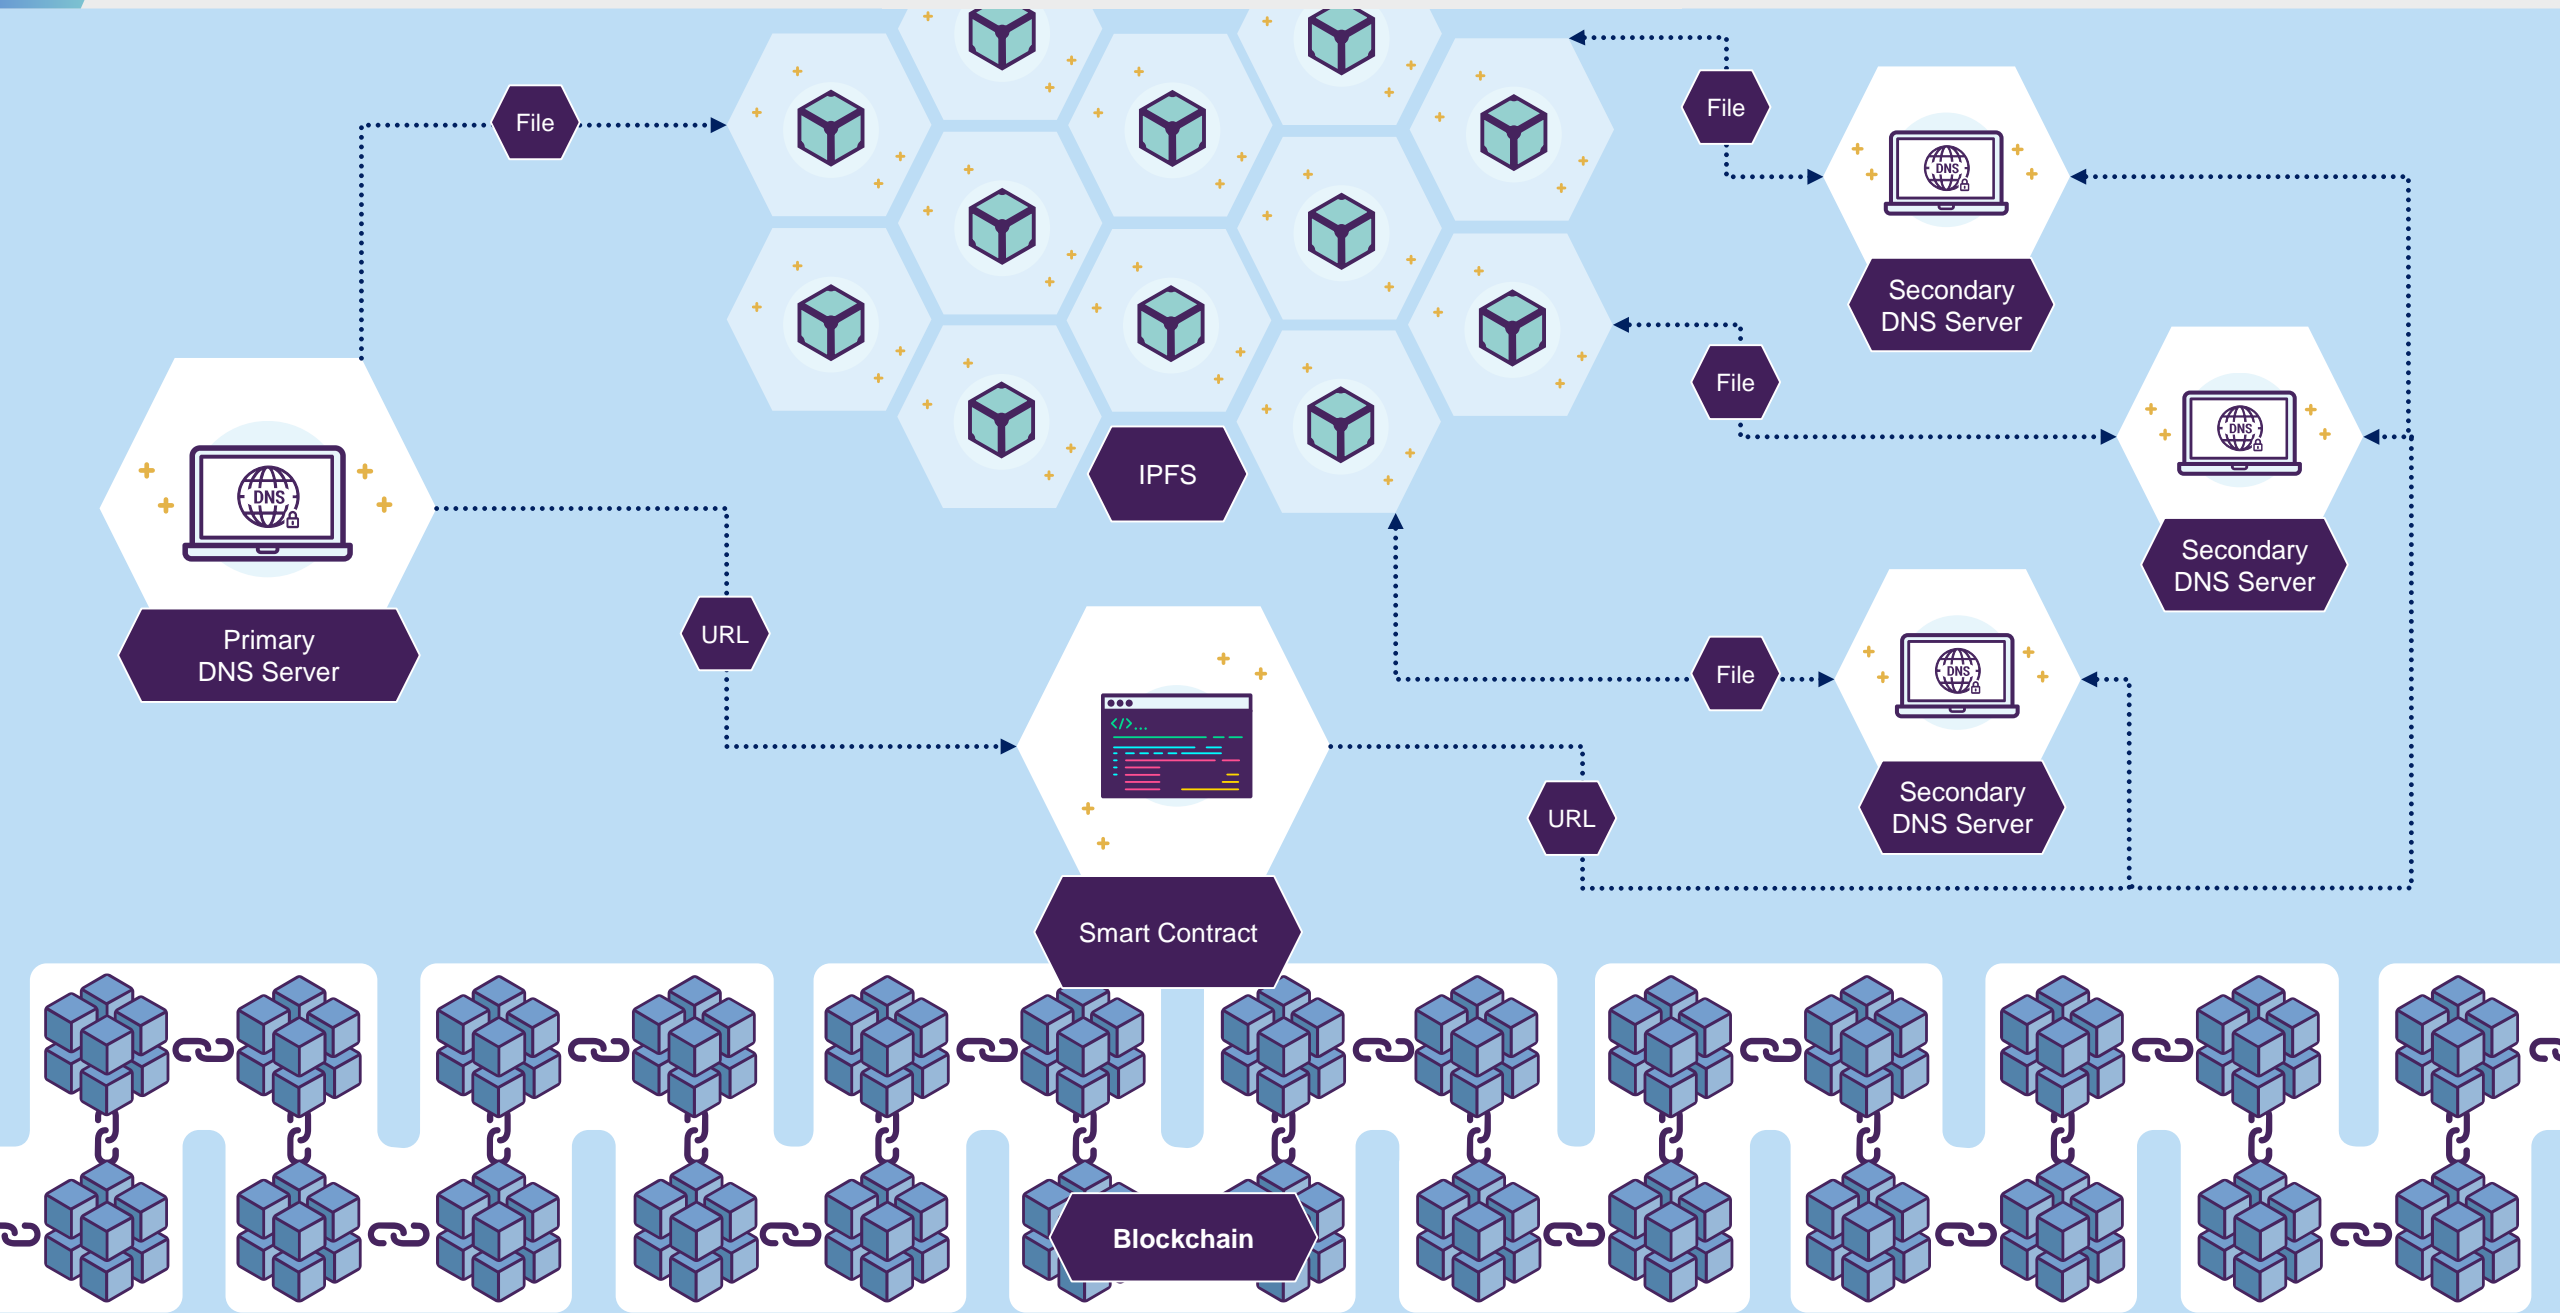

**Off-chain
storage**

Use Cases

Transparency in the
Domain Registry

Decentralization of the Zone File

Use Cases

Domain information
ledger

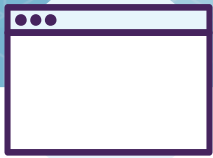

Regional scope

A Blockchain for the ccNSO
